(a) Including Federal Capital Territory. (b) For year ended previous 31st December. (c) Subject to revision.

Nors.—The figures for the production of wool published in the above table include amounts representing estimated deficiencies due to understatements in the production returns and other factors. Over the ten years ending 1931-35 these amounts averaged 23,000,000,000 lb. or 2.4 per cent. of the average production for the Commonwealth. Any discrepancy between the above figures and those published in other official statistical publications is due to these adjustments.

NOTE.—The value of the percentages of unemployment derived from Trade Union returns is in the indication they give of the relative intensity of unemployment from time to time.

(a) The quarterly figures show the number of persons who were out of work for three days or more during a specified week in each quarter; they do not include persons out of work through strikes or lockouts. The annual figures represent the average of the four quarters. (b) Represents approximately 56 per cent. of the total membership of Trade Unions. (c) A more extended table of percentages will be found on page 87.

Section VII,—Retail Price Index-Numbers—Food, Groceries, Housing, etc.

Note.—The index-numbers on this and the next three pages are related to the post-war period 1923-1927. The average prices for these five years for the Six Capitals are made equal to 1,000. In these tables the rent of 4 and 5 roomed houses only is taken into account

to 1,000. In these tables the rent of 4 and 5 roomed houses only is taken into account.

The index-numbers of food and housing formerly used by the Commonwealth Arbitration Court for the fixation and adjustment of wages are given on succeeding pages (pp. 78, 79). For these the base is 1911. The same food prices are used, but the rent of all houses of any number of rooms is taken into account, so that the index may be briefly described as the "All Houses" Index. ("A" Series.) The index-numbers now used by the Arbitration Court are the "C" Series published on page 77.

Retail Price Index-Numbers.(a)—Capital Cities. "B" Series.

Base in each Section:—Weighted Average of Six Capital Cities during five-yearly period 1923-1927=1,000.

NOTE.—The index-numbers given in the separate parts of the table cannot be compared with each other in order to show the relative cost of housing, and food and groceries, since the cost in 1923-1927 in each group or combination is made equal to 1,000.

The corresponding Index Numbers for the Six Capital Cities for November, 1914, and November, 1920, are as follows:—

Period.	Sydney.	Melbourne.	Brisbane.	Adelaide.	Perth.	Hobart.	Six Capitals
November, 1914	712	671	611	699	707	687	687
November, 1920	1,193	1,172	1,054	1,164	1,111	1,213	1,166

THE "ALL HOUSES" INDEX.

("A" Series.)

Note.—The index-numbers on this and the following pages are those prepared for the Commonwealth Arbitration Court (see note at head of page 74). They are related to a different base period (1911), and take into account the rent of all houses.

For further explanation on this subject, see Labour Report, 1930, Appendix VIII., which is also published separately under the title of "Wages and Prices".

Retail Price Index-Numbers (Food, Groceries, and Housing—All Houses), with Weighted Average for the Six Capital Cities in 1911 as Base = 1,000.

⁽a) Taken back from true base (November, 1914=1,000) by means of the Food and Rent (All Houses) Index.
(b) Calculated by "All Houses" ("A" Series) Index.
† The index-numbers given in the separate columns of the table cannot be compared with each other in order to show, for example, the relative cost of housing, and food and groceries, since the cost in 1911 in sach group or combination is made equal to 1,000.
